WHAT YOUR TEACHERS GAIN

A ritual ready every morning
Fresh content every day, at each class's level. No preparation.

The whole class speaks
The date, the weather, the word of the day, a challenge: five minutes of speaking the language from the bell.

The equipment you already have
The classroom projector is all it takes. No student devices, nothing to install.

WHY A RITUAL AT THE START OF THE LESSON?

It embeds the language
The date, weather and greetings return daily and become automatic.

It builds confidence
A familiar structure helps the shyest students dare to speak.

It gets the class working
No more waiting for silence: the class gets going by speaking.

It revives vocabulary
Words from previous days come back, without it feeling like a test.
