

Five minutes of ritual. Zero minutes of preparation.

Every morning, VocaDial gets the start of your lesson ready: the date, the time, the word of the day, the verb wheel... You project it, a student leads, the class answers out loud.

HOW IT WORKS

1

Create your class

A free account, a class, a level. Today's ritual is already prepared, with fresh content every session.

2

Project it

A student moves through the ritual with the keyboard. Or run it yourself from your phone, which becomes a remote.

3

The class answers out loud

Answers are revealed with a click. Nobody is graded: the ritual structures the session rather than measuring the students.

Nothing to install, no tablets to hand out: just the projector in the room. A very high-contrast dark theme, readable from the back of the classroom.

THE MODULES

A ritual that fits your teaching

Choose your modules, set their order, or let VocaDial mix things up every day. Throughout the year, limited editions follow the festivals: Día de Muertos, Halloween, Christmas...

AND AT HOME

The ritual continues on students' phones

- ✓ Your students find today's ritual at home and redo it at their own pace.
- ✓ A class code, a personal code: no names, no email addresses.
- ✓ You see who has done their ritual and what is improving: progress, not competition.
